Technology Expertise

Technology	Database	Architecture	Mobile
Visual Studio	MS Sql	Client Server	Gradle - Android
Dot NET	MySql	MVC,MVP,MVVP	IOS- Swift
Core PHP	PostgreSQL	Code Ignitor	Flutter - Dart
Android/iOS	Oracle	JSON/API	Xamarin
ReactJS	Mongo DB	nTier Stack	
Angular	NoSQL	nodeJS	

Operating Standards

- As a Total Solution Provider, we offer Solutions with Technology, Process and People
- Our offerings are end-to-end right from initial concept , brainstorming, capturing requirements, prioritizing them, architecture, design, implementation, review , testing, deployment, maintenance
- We also perform a review of your existing projects in terms of the "ilities" like Usability, Maintainability ,Scalability, Availability, Extensibility, Security, Portability
- For the projects that we undertake end-to-end responsibility , we take ownership right from requirements to deployment and maintenance.
- Performance by evaluating both the Architecture and High-level/low-level designs of the projects
- We work with standard Software Processes and Models including Six Sigma, Green Belt Process , AGILE, SCRUM or Custom Process methodologies based on the project needs
- We work on the platforms: Windows, Java, Web , Mobile (Android and iOS) and Cloud
- We have Full Stack Developers, Architects, Database Experts, Front End UI/UX Engineers, Android/iOS Developers, Cloud Administrators and Maintenance Support

Focused Services

OPUS Infiniti
